Faculty of Technology, Maharaja Sayajirao University of Baroda (MSU), Vadodara 2022-2026

Bachelor of Engineering in Computer Science and Engineering

Shree Vashishtha Vidhyalaya, Kamrej, Surat 2022

Higher Secondary Education (GSEB)

Ashwamegh Vidyalaya, Killa Pardi, Valsad 2020

Secondary Education (GSEB)

SKILLS

Languages	Python, C#, JavaScript
Databases	SQL, MySQL, MongoDB
Web Technologies	HTML, CSS, React.js, Node.js, ASP.NET
Frameworks and Tools	Express.js, REST APIs, Postman, Git, GitHub, VS Code
Technical Areas	Data Structures and Algorithms (DSA), Web Development, ML, SDLC

EXPERIENCE

Full Stack Developer Intern Dec 2025 – Apr 2026

ScriptMatrix Private Limited *Vadodara, Gujarat*

- Worked on and enhanced **SolarMatrix CRM**, an enterprise CRM & ERP platform for solar EPC companies using **ASP.NET (C#), MySQL, HTML, CSS, and JavaScript**.
- Performed **Excel-to-MySQL data migration** by preparing product master data, creating SQL import scripts, and validating migrated records.
- Implemented and enhanced modules including **Lead Management, Inquiry, Quotation, Order, Trading, Procurement, Dashboard, Payment, Installation, and Service Management**.
- Developed and integrated **REST APIs for mobile applications**, implemented business logic, optimized SQL queries, and deployed production-ready enhancements.
- Enhanced business workflows by implementing **OTP authentication, WhatsApp integration, workflow validations, dashboards, reporting, and product price history analytics**.
- Collaborated directly with clients to gather requirements, demonstrate CRM features, resolve production issues, and provide technical support.
- Participated in **requirement analysis, testing, debugging, code reviews, deployment, and maintenance** of live CRM modules.

Web Designing Intern May 2025 – June 2025

Sparks To Ideas *Ahmedabad, Gujarat*

- Gained practical experience in modern web designing technologies including HTML, CSS, and JavaScript.
- Collaborated with a development team to design responsive and user-friendly website interfaces.
- Improved webpage performance and visual design through efficient layout structuring and styling.

PROJECTS

GYM Website — MERN Stack

Aug 2026

Developed an end-to-end fitness management web application using the MERN stack (MongoDB, Express.js, React.js, Node.js). Built responsive frontend interfaces, developed backend REST APIs, integrated MongoDB for data persistence, and implemented application workflows connecting the frontend, server, and database.

[\(View Website\)](#)

ATM Banking System

June 2026

Developed an object-oriented banking application in **Python** to simulate ATM operations including account management, authentication, deposits, withdrawals, and balance management. Applied **OOP principles** such as encapsulation, inheritance, polymorphism, and modular class design.
